

CS69011: Computing Lab-1

Task 4: Graph (Part - B)

August 23, 2023

=====Instructions=====

1. In the case of user input, assume only valid values will be passed as input.

2. Regarding submission: Create separate C file : <RollNo>_task2.c

=====

Task:

T2. Prim's Algorithm Implementation on the Simple undirected weighted graph, given a source vertex find the distance from the source vertex to every other vertex

Sample Input-

3 0
0 1 2
1 0 1
2 1 0

Sample Output-

0 1 2
